

II Paediatric Simulation Days Hannover (Germany) 29.-31. Oct. 2011

Different international evolutions in the field of paediatric simulation will meet during simulation courses with international instructors and participants at Hannover on to exchange experiences and to strengn cooperation for future projects (29-31 oct. 2011).

All professionals and fields involved in paediatric emergency medicine are invited: hospital, pre-hospital, primary care care givers of all involved disciplines and professions.

Different Paediatric Emergency Courses will be held in simulation setting. All courses are part of one project with one joint concept-faculty:

1) The **new debriefing system** elaborated by the EXPRESS-Study-group for the **PALS Pediatric Advanced Life Support** course (AHA American Heart Association/AAP American Academy of Pediatrics) with intructors from North-America which have contributed to the new system in the Simulationcenter of St.John's Medical Emergency Association (Johanniter Bildungsinstitut Hannover)

2) The **NLS Newborn Life Support-, EPLS European Paediatric Life Support- and EPLS-Refresher Course** of ERC European Resuscitation Council in life-like environments in the Simulationcenter of German Red Cross (DRK-SiTZ)
NLS 29 oct. 2011
EPLS 30-31 oct. 2011
EPLS-R 31 oct. 2011

3) **Paed. Emergency Training for Primary Care Paediatricians** in the Simulationcenter of St.John's Medical Emergency Association (Johanniter Bildungsinstitut Hannover) in cooperation with ECPCP Euopean Confederation of Primary Care Paediatricians)
31 oct. 2011

Participation is possible in English or German
