Workshop Didactics and Language Certificates in Italian and English

Dear English teachers,

The School Inspectorate, in collaboration with the Language Centre of the Free University of Bolzano, is organising a **videoconference workshop** about didactics and language certificates.

The meeting is intended for teachers of second language and English as a foreign language in secondary schools. The aim of the meeting is to present methodological approaches that can integrate didactic contents and language skills, in order to promote the attainment of language certificates by students.

After a brief introduction in plenary, two workshops will be held, one in Italian and one in English, during which Elena Bonetto and Michael Ennis, scientific and didactic coordinators of the Language Centre of the Free University of Bolzano, will present concrete examples and good practices that take into account the curricula and syllabi already employed by language teachers.

The videoconference will take place on **1st December 2020** from 3.00 p.m. to 6.00 p.m.

Registration for the videoconference must be sent by e-mail to the Inspectorate no later than 20/11/2020, indicating the teaching language and the textbooks used:
inspektorat@provinz.bz.it

During the last week of November, two participation links will be sent, a link for the introductory plenary meeting and a link for the language workshop.

Best regards.

Die Schulamtsleiterin
Sigrun Falkensteiner
